

Middle School Geography

Curriculum Content

Our Geography curriculum framework is carefully designed to intrigue our students to explore and investigate important issues in our world today. Our emphasis on providing a strong foundation in geography education will ensure that students will have a smooth transition to meet the challenges of IGCSE program in Year 9 and 10. It is designed to trigger thinking, help raise essential questions and allow students to acquire the skill to investigate issues in a purposeful and critical manner. By building on prior knowledge of the world, the course will help students understand the interrelationships between people, place and environments. Students will be made aware of future challenges, and in learning to manage these challenges, become active and concerned citizens.

Year 9 – 10 Curriculum Content
