## St. Mark's Students Achieved Perfect Score on HSK Assessment 2014

In March 2014, our Mandarin students participated in the HSK Chinese Proficiency Test, a standardised assessment used worldwide in assessing the language abilities of non-native speakers of Chinese. During that assessment, St. Mark's Primary students were among the youngest students to take the assessment, but their capabilities are truly well-above their age.

On behalf of St. Mark's International School, we would like to congratulate **Min Ju** who has attained an exceptional score of **100 percent**.

At the same time, congratulations to other stellar performers in this year's HSK examinations. This includes Yoonjee, Phaschapha, Shawn, from Year 5 and Passaraporn, Jean from Year 3, who has obtained HSK scores well above 80 percent. Congratulations to all!

*In 2015, St. Mark's has been chosen to represent HSK and become an official testing venue for the HSK Chinese Proficiency Testing program in Thailand*
